# Epson **SureColor SC-T7000**

This 44-inch large format 4-colour printer is ideal for applications where speed and economy are paramount, such as CAD, GIS, custom banners, presentations and indoor signage. It comes with a version of PRESTIGE software created for Epson. Creating posters is easy, even with no experience. This cost-effective package can reduce turnaround times and enhance marketing and promotional activities.

Designed to fit seamlessly into the office environment, the SC-T7000 features sleek styling, a small footprint, and is operated from the front to allow convenient placement against a wall.

Efficient and economical
The SC-T7000 takes just 28 seconds to produce an A1 print in draft mode on plain paper, and offers optimised running costs with a choice of 700ml, 350ml and 110ml ink cartridge sizes.

Easy to set-up and use
Straightforward to install, it integrates into most production environments. This printer is also so easy to use that operators do not need special training. All controls are at the front. Media is fed in at the top, and the finished prints emerge at the front, stacking neatly into a basket. Tracking how much paper is left on a roll is simple thanks to media barcode printing.

Durable, high-quality results
Epson UltraChrome XD Ink has been specifically developed to produce high-quality, durable prints with deep blacks, a wide colour gamut and crisp, dense lines with a minimum width of 0.02mm. This pigment-based ink is smudge, crease and water resistent, so you can also create prints for short-term outdoor use.

PRESTIGE for Epson software
The software provides a large selection of pre-defined layouts, including themed graphics for fashion, groceries, travel, toys and much more. It's ideal for weekly adverts and short-term promos.

KEY FEATURES

- 28 secs for A1 print on plain paper
- Cartridge sizes from 110ml to 700ml
- Operated from the front
- HP-GL emulation mode
- 0.02mm minimum line width
